

Maple Leaf Square Toronto, Ontario

This multi faceted building is located in the heart of Toronto's entertainment district and on the front lawn of the Air Canada Centre – the home of the Toronto Maple Leafs and Toronto Raptors. The building contains a huge grocery store, 3 levels of retail, a 10 story office building, a ten story hotel and 2 50 story condominium towers. The facility utilized district steam for heating and Enwave Deep Lake Water Cooling for all air conditioning systems.

The Architect is KPMB/Page+Steele Architects and the Mechanical Consultant is Hidi Rae Consulting Engineers.

HTS Engineering provided all the main HVAC equipment and Controls including:

- ITT heat exchangers
- ITT pumps
- Haakon AHUs
- Compartment units
- DriSteem Humidifiers
- Fan Coils
- Custom wall fin enclosure
- Heat recovery units.
